Osama Nisar

Full Stack Developer

Passionate about building complete web solutions that are smooth, scalable, and easy to use. I enjoy turning ideas into real products by working across both the frontend and backend. Always looking to learn more and take on new challenges that help me grow as a developer.

WORK EXPERIENCE

Backend Engineer
Rev9 Solutions

06/2023 - Present *On-site*

Achievements/Tasks

- I have consistently delivered impactful contributions to my employers. Continuously advancing my skills, I've learned extensively during my tenure and thrived on diverse projects, translating theoretical knowledge into real-world expertise. Committed to ongoing learning, I ensure my skills remain current and applicable.

PROJECTS

PrinceMotorsUSA (PHP | Laravel) (08/2023 - 10/2023)
- Prince Motors is a commercial truck and equipment dealership based in Southern California. I developed its backend using PHP and Laravel, handling the admin panel where inventory across different categories is managed.
- **Application URL: https://princemotorsusa.com**

VYACARE (Laravel | VueJs) (01/2024 - 05/2024)
- VYACARE is a software platform that streamlines nutrition counseling. I integrated calendar services like Google, Zoho, and Outlook Calendar. Additionally, I implemented Zoom integration, enabling doctors and patients to meet online within the VYACARE platform.
- **Application URL: https://vyacare.com**

OnTime (Laravel | NextJs) (05/2024 - 10/2024)
- OnTime is a logistics platform where I integrated two major dispatchers—Royal Mail and DPD. Previously, the client had to manage these services separately, which was inconvenient. I solved this by integrating both dispatchers through their APIs, allowing seamless operations within OnTime.

EDUCATION

### Bachelors in Computer Science(BSCS)
University of the Punjab

09/2019 - 05/2023 *3.60 CGPA*

Courses
- Web Engineering, Data Structure and Algorithm, Database Management System,
